If your child is 3 years old and is not potty trained they must go to Child Watch, if your child is 3 years old and is potty trained they need to be in the Adventure Zone when it is open.

Please Note:

- For the safety of your child, please adhere to the age guidelines.
- In order to best serve all our members, please take your child to the restroom before checking in. This allows our staff to remain in the room instead of making trips to the restroom.
- If your child has special needs, please communicate those with the staff person. We make every effort to accommodate children with special needs and encourage usage during non-peak times so that we may better serve you and your child.
- Snacks are not allowed, however we do encourage usage during non-peak times so that we may better serve you and your child.
- We reserve the right to limit usage during peak times to Facility Members only.
- Socks must be worn at all times.

Sick Policy

We are unable to care for any children who are sick. A sickness would include, but is not limited to; fever, vomiting, diarrhea, productive cough, and green or yellow eye and/or nose discharge. It is in the best interest of all the families we serve and our staff that we follow these health guidelines and we thank you for your cooperation.

Scooters

Did you know you could utilize Child Watch and Adventure Zone before your child's swim lessons so you can get in a longer workout? Scooters program is free and only available to Facility Members. With Scooters you can drop your child off (they must be fully potty trained) in Child Watch or Adventure Zone up to 90 minutes (but at least 20 minutes) before their swim lessons, we'll escort them to their lesson and you pick them up! Pick up a Scooters flyer for more information.
