YMCA YOUTH & GOVERNMENT

74TH YOUTH LEGISLATURE DELEGATE WORKBOOK

Delegate: _____

YMCA Youth & Government Youth Legislature is designed to educate and civically engage teens in grades 8-12 about our State Legislative process by giving them a “hands on experience”. During our delegation meetings you will be encouraged to research and write your own piece of legislation, learn about parliamentary procedure, debate practices, learn the importance of opening and closing remarks and have the opportunity to take on various roles of the state government.

Throughout the year you will spend time in our local delegation learning the basics of our state government. You will practice public speaking skills and learn parliamentary procedure, research and draft legislation, and discuss the roles of the press and lobbyists in the legislative process. Our delegation meetings prepare you for your participation in district events, held during the winter, where you will share their ideas with others from our district and possibly run for a statewide leadership position.

The culmination of the program occurs at the 74th YMCA Youth Legislature from May 5-8, 2021. It is at this time that over 450 delegates from around the state converge on the state capitol to conduct their model youth legislature. Here delegates take on the roles of Representative, Senator, Lobbyist, Reporter, or Page and do their part in passing legislation that is important to them. In addition to these roles, experienced participants also have the opportunity to take on leadership roles such as Governor, Secretary of State, and Speaker of the House.

Objectives:

- Learn about state government and democracy in a fun way
- To become familiar with the types of legislation and how they pertain to state and federal government
- To become familiar with the various roles of state government and take on one of those roles during the 74th Youth Legislature
- Build self-confidence through public speaking
- Develop strong leadership skills
- Communicate effectively
- Adhere to our YMCA Core Values (Responsibility, Honesty, Respect, and Caring) while supporting our fellow delegates

Expectations:

- That teens attend delegation meetings on a regular basis
- That ALL teens write a minimum of one piece of legislation no matter what role they play
- That teens abide by the Code of Conduct & Dress Code outlined in the YMCA Youth Legislature Rules
- That teens represent their delegation in a positive manner during all delegation meetings and at the 74th Youth Legislature
- That all required paperwork i.e. bills, articles, nomination forms etc. be turned in by the deadlines

YMCA Youth & Government

Core Values

Honesty – All delegates are asked to research current events, take a stand on the issue, and write a piece of legislation. Intellectual honesty and a strong sense of academic ethics are critical to the Y&G process of research and debate. Tell the truth, speak for yourself, speak out against injustice, mean what you say—say what you mean.

Respect – Youth & Government delegates will encounter arguments and positions that are at times contrary to their own personal beliefs or feelings. Teens learn to confront these ideas head on in a respectful manner without the need for personal attack on other delegates. Listen to all opinions, treat others with respect and take care of areas that we are guests in.

Caring – Teens become members of a delegation that supports and at times will challenge their beliefs and will provide a platform for their voices to be heard by other delegates, adult advisors and elected officials. Avoid putdowns, choose to see the positive, help someone in need. Our Caring Adult Advisors are there to provide guidance, support, structure and boundaries.

Responsibility – A Youth & Government delegation only works as a cohesive unit when each member contributes to the goals for the program. Delegates are taught and are expected to act with a Servant Leader’s heart. It is the responsibility of every delegate and advisor to measure their actions and decisions against the standards of Servant Leadership. Do the right thing, meet all deadlines and take responsibility for your learning and actions.

Bills in Youth and Government

Bills and their preparation comprise the most important and basic part of the total Youth Legislature. Bills are the catalysts for Committee Sessions, Chamber debate and actions by the Youth Governor. Experience has proven that the better a bill is prepared, the better the entire experience is for you the delegate. Consequently, it is important that you understand bills thoroughly, how to write one, the process by which they become laws, etc. Writing a bill is quite simple – if you know a few secrets. The next few pages will reveal some of them to you.

The most important part of writing a bill is choosing a topic which is meaningful to you. The strength of commitment you feel toward your bill will surely influence your overall experience in the Youth Legislature. Whether your interests are in the environment, education, law enforcement, or social services, your bill should be about something in which you believe.

Every piece of legislation that is signed into law makes some change, great or small in the lives of the people of Washington State. Each legislator should carefully consider the intent of the proposal and weigh the public need against the suggested solution before sponsoring or voting on any bill.

Bills, Bills, Bills

_____ – Also known as a bill during Youth & Government. This piece of legislation proposes a new law or amends an existing state law. These pieces of legislation usually get the most serious consideration, because these bills actually propose changes in the laws of our state and have a real impact upon our quality of life. This piece of legislation can be enacted in an emergency or take a couple of years to implement. This type of legislation must have an RCW number attached to them.

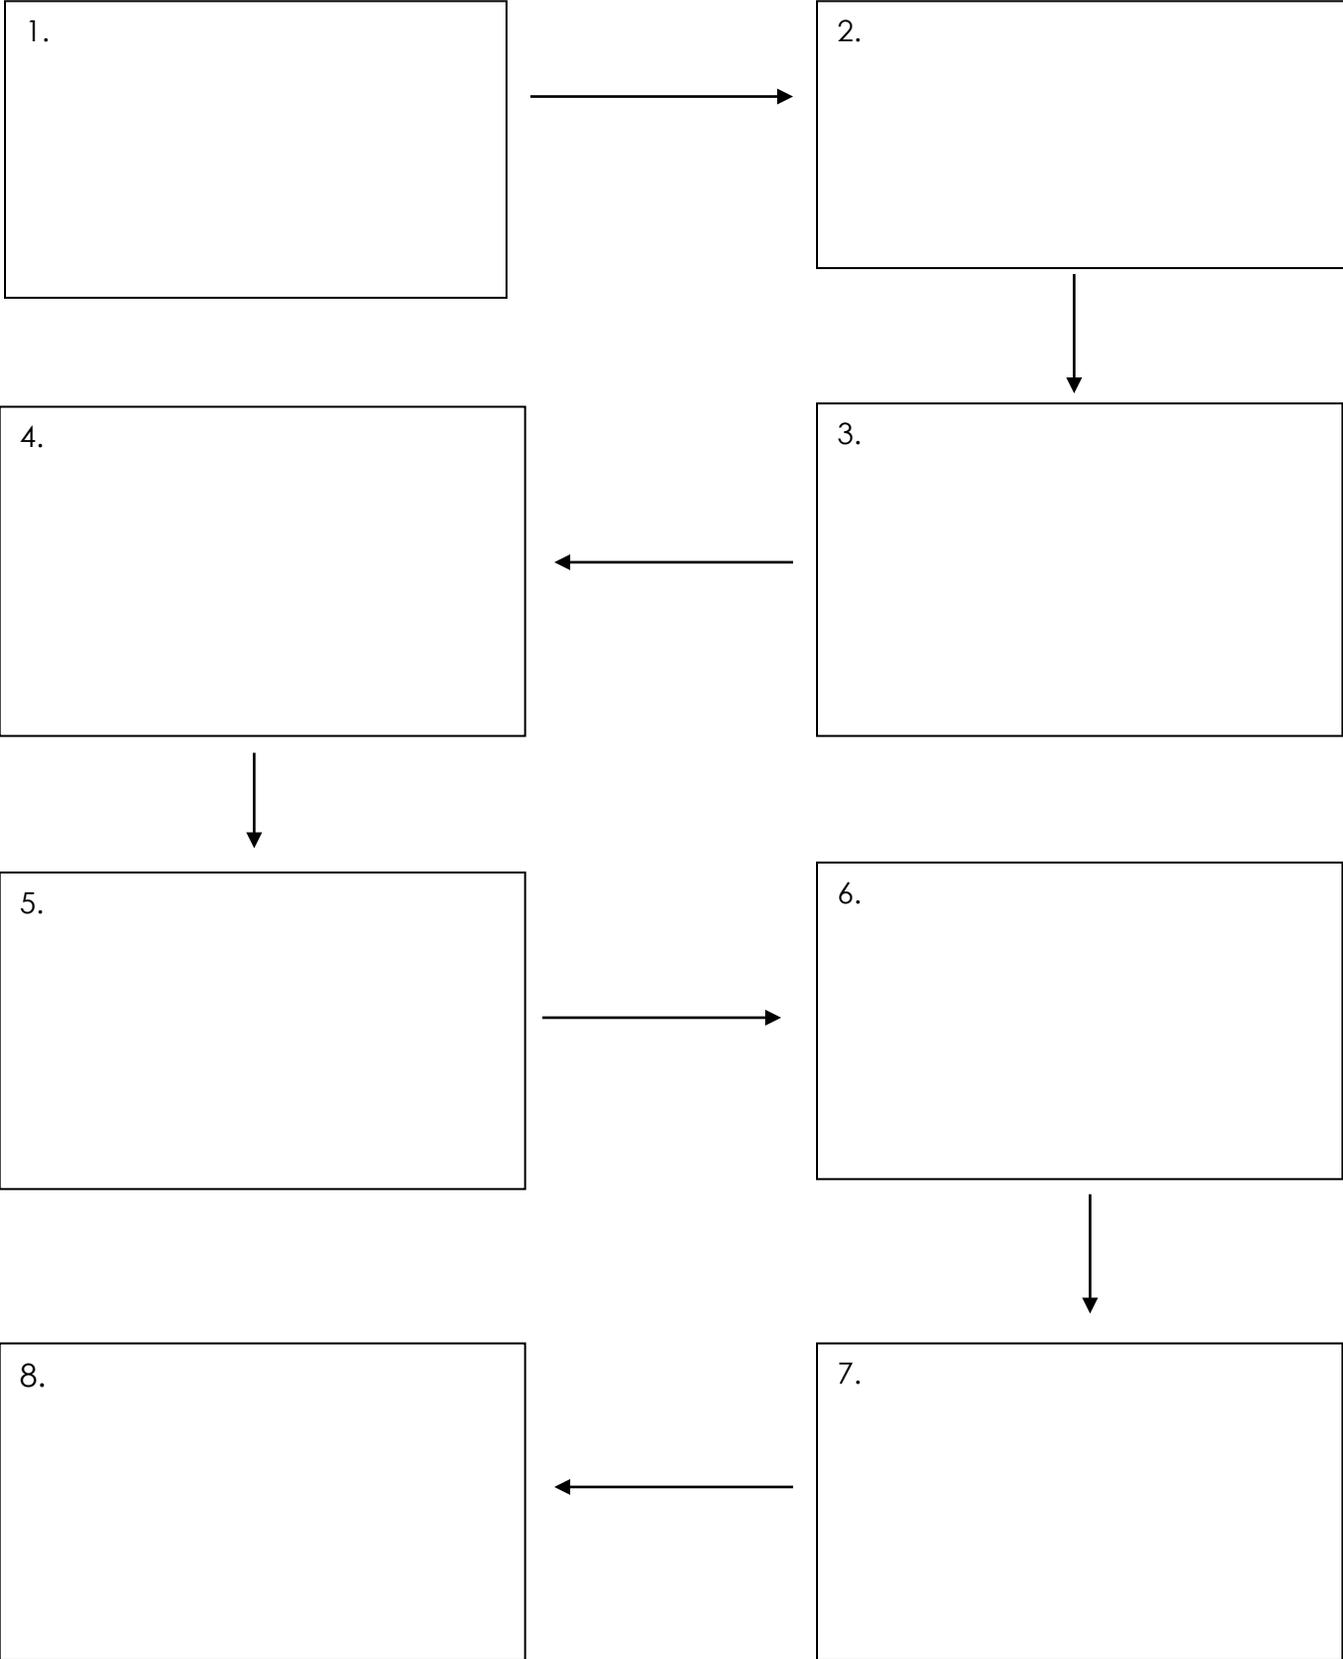

RCW stands for:

_____ – Applies to matters external to the legislature. This piece of legislation also has a big impact on our daily life if they relate to the Constitution, which provides the framework for our government. For Youth & Government purposes, this type of legislation can also amend the Youth & Government Rules of Order. During Youth Legislature you won't see a lot of these.

_____ – Is a letter to Congress, the President or federal agencies on matters affecting the state or our nation. This type of legislation provides a means of telling the federal government what the legislature thinks about an issue, but does not have any real impact or "clout" in making real changes. This is the only pieces of legislation that are not signed by the YMCA Youth Governor.

_____ - This type of legislation is specific to the YMCA Youth Legislature only and is a starting point for younger delegates in the program. This legislation can be either signed or vetoed by the Youth Governor.

Where to find bill ideas

Write down at least 5 places you can think of where you might find bill ideas and why that would be a good place to look. Then pair up and compare your list with your partner.

Take a moment and think back to everything that you did the other day. Then write down in "bullet points" what you did. Afterwards, take a look at your list and "mark" those things you did that you feel there are no laws governing what you did.

Choosing your topic

It may be helpful to ask people around you for ideas.

Consider any condition, which exists in your school, city, state or nation, which makes it difficult for people to get the most out of their education, recreation, health, or employment. Items in the local news or newspaper constantly are always good issues. Obstacles that are always in the way of you and those you know are good since you have experience and knowledge of the subject.

- Ask yourself – What do I consider to be the burning issue for Washington, the nation or global community?
- The following is a list of possible ideas for legislation. Do not simply select one of the topics in the list but use this list to stimulate your thinking.
 - Education – school funding, teachers, special needs, school activities
 - Environment – pollution, recycling, waste, fuel, alternative energy
 - Human Services – public assistance, child abuse, civil rights
 - Government – taxes, term limits, elections, school funding
 - Law – police, juveniles, prisons, gun control
 - Health – abortion, STD's, HIV/AIDS, substance abuse, immunizations
 - Economics – labor unions, wages, tourism, incentives, budget deficits
 - Transportation – motor vehicles, speed limits, trains, busses, tolls

Tips on writing your bill

The first thing to remember is: a good idea isn't necessarily a good bill. In other words, just because something would help the State of Washington or our nation doesn't mean that it is a good bill topic for Youth and Government delegates.

Seem strange? Well, here's why: Youth and Government bills need to be ideas that can be debated effectively. That means that a bill about requiring State Prisons to use only recycled paper probably isn't good because no one will really want to argue about it.

Really good debate can only happen if a few other things happen. Here's what we believe makes a good bill:

- **Debatability** – people are going to want to argue your bill from both sides of the issue. If you can't think of an argument against your bill, you should probably choose a different one.
- **Importance** – the idea here is that a bill that affects a lot of people or a wide variety of people is better than a bill that only affects a few people or a narrow range of people. If a topic has been in newspapers, internet, or on TV, than it may be a good bill topic.
- **Feasibility** – could your bill actually work the way you want it to in the real world; it is realistic?
- **Researchability** – are you going to be able to find facts, statistics, and news articles supporting your idea?

The key to a good bill is that is it an idea that you care very much about. The more passionate you feel about your bill, the more you will want to put the work in that will make it successfully.

Mapping Out Your Bill

Once you have chosen your bill idea, you need to start putting it together piece by piece so in the end you have a “solid” bill with all the information.

Use this worksheet to help “map” out your bill.

Identify the problem. Explain your bill idea in the space below.

List some possible options for solving the problem. What will happen if nothing is done to address the problem?

Bill Drafting Guidelines

There are four different types of proposed legislation in the YMCA Washington State Youth Legislature:

1. **A Legislative Act** – proposes a new or amends a law or the repeal of an existing law
2. **A Resolution** – applies to matters external to the legislature, such as the State Constitution or the YMCA Youth & Government Program
3. **A Memorial** – in essence a letter to Congress, the President, or federal agencies on matters of national interest
4. **An 8th Grade Proposal** – specific to the YMCA Washington State Youth Legislature, this piece of legislation proposes an idea and solution on a state or national level

In each case, there are specific guidelines that must be followed in drafting your bill. A sample of each of the four types of legislation is included in this section.

Acts usually get the most serious consideration, because these bills actually propose changes in the laws of our state, and have a real impact upon our quality of life. These Acts must pass both chambers by a simple majority vote.

Resolutions also have a big impact on our daily life if they relate to the Constitution, which provides the framework for our government or to the Rules of Order for the YMCA Washington State Youth Legislature. Resolutions must pass both chambers by a 2/3 majority vote.

Memorials provide a means of telling the federal government what the legislature thinks about an issue, but does not have any real impact or “clout” in making real changes. Memorials must pass by a 2/3 majority vote.

8th Grade Proposals are ideas on a specific topic that provide the issue, a solution, fiscal impact and sense of urgency. Proposals are passed by a simple majority vote.

How to Say It

Be Direct

Bill drafts should be precise and understandable. This is usually achieved by avoiding excessively long sentences, wordiness, and legalese. Sentences should be no longer than about 17 to 21 words to be easily understood. Excessively long sentences make statutes difficult to read and interpret. Never use many words where a few will do. Always try to use language used in normal conversation and correspondence.

Use Present Tense

Bills should be written in the present tense. (i.e. – “It is illegal to...” rather than “It will be illegal to...”) Do not say what you want to happen, say what will happen.

Avoid Jargon

Certain words are used in bill drafting either because they sound and look legal and important, or because they have been used since time immemorial. Occasionally some of this legalese may actually be needed, but generally it should be avoided.

Feeling Words

Avoid using the words “I feel” and “I want”. Bills should be void of feeling. This is what your opening and closing remarks are for.

Words to Avoid

The following is a list of words to avoid in bill drafting and some suggested substitutes:

| Avoid Using | Use instead |
|---|---------------------------|
| Aforesaid or aforementioned | The, that or those |
| It is lawful to | May |
| Is authorized/entitled to | May |
| It is their duty to | Shall |
| Is directed to | Shall |
| For the reason that | Because |
| Until such time as | Until |
| For the duration of | During |
| Wheresoever | Wherever |
| Whenssoever | When or if |
| Make payment | Pay |
| In the event that | If |
| Forthwith | Immediately |
| Absolutely null and void and of no effect | Void |
| Bonds, notes, checks, drafts, and other evidences of indebtedness | Evidences of indebtedness |

- What do you want to do? (be brief)

- What RCW does this relate to?

- Are you creating, changing or getting rid of an RCW?

- What words do you need to define?

- What do you want to do? (be specific)

- Is there a penalty?

- If so, what is it?

- Which governmental department would enforce this penalty?

- Is there any money needed to fund your bill?

- If so, where would these funds come from? (be specific)

- Is money generated by this law?

- If so, how much and how?

- What would that money be used for?

- How soon would you want this to become law?

Finances for your Act

If you are writing an Act, it is a good idea to have a Fiscal Impact Worksheet. The fiscal impact worksheet helps the proponent to know just how much money your bill will cost to implement or how much money your bill will save the state or tax payers. If you don't know the financial impact your bill will have, then you might have a difficult time convincing other delegates to vote in favor of it. These details are important because if your bill will actually cost money to implement, you will need to show that the cost of the bill is much less than the benefits received by the law itself.

This outline will help you map out the financial impact your bill will have, where the money is going to come from and how it is going to be spent.

Does your bill cost the state money or does it make the state money?

How do you plan on paying for this bill?

Who can you call to get more information regarding the cost/savings of your bill?

If applicable, why should those that are paying for this bill bear the burden of financing it? (they benefit the most, they're the group causing the problem being solved by the bill, etc.)

What is the total amount that your bill will cost?

*While this may seem like it should be easy to answer, it is often not. Make sure to make some phone calls to find out labor costs, material costs, etc. that will be increased due to your bill. Make calls to other states with similar programs if needed.

How to turn your Act outline into an Act

Questions 1, 2, &3 – Together these become the Short title of the bill. Between the Short Title and Question 4, you insert the Enactment Clause:

BE IT ENACTED BY THE YMCA YOUTH LEGISLATURE OF THE STATE OF WASHINGTON:

Question 4 – This becomes your first section (SECTION1: Definitions)

Questions5-8 – These become the body of your bill, separated into appropriate sections.

Questions 9-13 – This is the information you need for your fiscal impact worksheet.

Question 14 – This is your enacting date, or when you want your law to be effective.

Memorial Outline Worksheet

1. What do you want to do?

2. What are your reasons or facts? (list as least 3)

a) _____

b) _____

c) _____

d) _____

e) _____

How to turn your Memorial outline into a Memorial

Each of your reasons (a-e) becomes a WHEREAS statement

What you want to do becomes the NOW, THEREFORE statement

Remember, a Memorial is a letter to the President, Congress and Department Heads and you do not need to be absolutely specific about how the law will read.

Be concise – the less words you use to convey what you want the better.

8th Grade Proposal Outline Worksheet

What is your topic?

Are there any words that need to be defined?

What is your proposal for action?

Is there any enforcement needed for your proposal?

If so, who is going to enforce it and how?

Will your proposal cost any money? If so how much and where will it come from?

What is the level of urgency for your proposal?

Use the above information to start writing your 8th Grade Proposal.

Sample Bills Small Group Exercise

The following pieces of legislation are examples written by students in the YMCA Youth Legislature. These bills were chosen for its format & writing style, however no bill is perfect. As a group discuss these bills in terms of the following questions:

- Does the formatting of this bill follow the guidelines listed?
- Are all lines numbered correctly?
- Is the bill concise or does it use too many extra words?
- Does the bill have the correct header? If something is missing, what is it?
- Does this bill state what the intent of the bill is?
- Does the bill contain all necessary definitions? If not, what else would you need to define?
- Are all amendments underlined and stricken as necessary? (Acts only)
- Are there “feeling” words included in the bill? If so, how could you change it?
- Are RCW’s cited correctly and in all the right places? (Acts only)
- Does the effective date make sense with regard to the topic of the bill?

Don’t stop there! Think of new questions and practice evaluating other past pieces of legislation. This will not only help you in the writing of your own bill, but it will make you more able to think critically about bills when you arrive in Olympia.

34

A MEMORIAL

16 TO THE HONORABLE BARACK OBAMA, PRESIDENT OF THE UNITED STATES, AND
17 TO THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE OF
18 REPRESENTATIVES OF THE UNITED STATES, TO THE SENATE AND THE HOUSE OF
19 REPRESENTATIVES OF THE UNITED STATES, IN CONGRESS ASSEMBLED

20

21 We, Your Memorialists, the Senate and House of Representatives of the YMCA Youth
22 Legislature of the State of Washington, in legislative session assembled, respectfully
23 Represent Washington State YMCA Youth and Government and petition as follows:

24

25 WHEREAS, Education is tremendously important in today's society; the requirements
26 of jobs are now requiring more education.

27

28 WHEREAS, every state is different, each city is different and all schools are not the
29 same.

30

31 WHEREAS, the federal government has too much control on the issue of education.

32

33 WHEREAS, the increase in funding is getting us nowhere and the government is
34 falling deeper and deeper in debt.

35

36 WHEREAS, students are capable of succeeding and graduating, but the Federal
37 Government is using "loopholes" to fix the nation's problems. Requiring tests to
38 graduate or completely shutting down schools because they are not reaching
39 standards is not going to fix the problem; instead of just opening our wallets, we
40 have to dig deeper to find a solution.

41

42 NOW, THEREFORE, We your Memorialists, respectfully request local educational
43 leaders, such as members of school boards, and local community partnerships with
44 schools be the entities in control.

45

47 Barack Obama, President of the United States, the President of the Senate, the

WHEREAS, YMCA Youth Legislature delegate code of conduct and dress code causes inequality and favors one gender above the other.

NOW, THEREFORE, BE IT RESOLVED, that either females be disallowed from wearing the above mentioned, "male appropriate clothing", or males be allowed to wear the above mentioned "female appropriate clothing" and that all state, district and delegation documents be changed to reflect the outcome of this legislation by the 66th Youth Legislature.

Opening Comments Worksheet

Your opening comments are the first introduction to your idea. First impressions are key when trying to inform people just what your bill is about and what impact it will have. Use this template to help you organize your thoughts.

Facts about your bill. Write down 3 solid facts about your bill/topic.

- _____

- _____

- _____

Write down what impact your bill will have if not passed.

- _____

Write down what impact/or benefits your bill will have if passed.

- _____

Now take all these ideas and write out your opening comments.

- _____

Now taking all the information that you gathered in the previous pages, you are now ready to write out your opening comments. Take a moment and read the example opening comments on the following page. Can you sense the speaker's passion? How does he begin the speech and why is his approach effective? What type of persuasive language does he use in his speech? Can you apply either of the observations made above to your speech?

Senate Chambers—March 28, 2000

...Mr. President, when I came home from Vietnam a little over thirty years ago, I came home to a nation divided. I was assigned by the U.S. Marine Corps to head up a major officer recruiting program on college campuses all across America. It was 1969 and anti-war fever was consuming the nation. As you can imagine, my Marine uniform on a college campus became a lightning rod for protests and protesters. In this assignment, Mr. President, incoming bullets, rockets and artillery were replaced by insults, jeers and demonstrations...

But Mr. President, I rise today to defend the rights of those individuals 30 years ago to protest me and my uniform. Freedom of speech is the foundation of our democracy--and silencing that speech would have been against everything I had fought for in Vietnam. To paraphrase an old saying: I didn't agree with what they said. But I had been willing to die to protect their right to say it.

Mr. President, I am repulsed by any individual who would burn the flag of my country to convey a message of dissent. It is an act I abhor and can barely comprehend. But in the democracy that our forefathers founded, and that generations of Americans have fought and died to preserve, I simply do not have the right to decide how another individual expresses his or her political views. I can abhor those political views, but I cannot imprison someone for expressing them. That's a fundamental tenet of democracies and it's what makes America the envy of the world, as the home of the free and the brave.

Last week, I received an e-mail from a retired U.S. Marine Corps Colonel from Virginia. Like many Americans (and many American veterans), he had struggled with this issue and searched his conscience for what's right. In his message to me, he said: "I have seen our flag torn in battle, captured by our enemies, and trampled on by protesters. In all those events I never felt that the American way of life was in grave peril... for whenever our flag fell or was destroyed there was always another Marine to step forward and pull a replacement from his helmet or ruck sack."

He continued: "The Constitution is the bedrock of America, the nation... the people. It is not possible to pull another such document from our national ruck sack.' We have but one Constitution, and it should be the object of our protection..."

...Mr. President, since speech that enjoys the support of the majority is never likely to be limited, the Bill of Rights, by its very design, protects the rights of a minority in key areas that the founders held dear. And it is the freedom to dissent peacefully that separates the greatest democracy the world has ever known from other regimes like those in China, Cuba, Iraq, and others where political dissent has been met with imprisonment and sometimes death.

If we reach past our natural anger and disgust for a few publicity-hungry flag-burners, we know in our hearts that a great nation like ours, a nation that defends liberty all over the world, should not imprison individuals who exercise their right to political dissent. And we know in our hearts that a few repulsive flag-burners pose no real danger to a nation as great as ours.

Mr. President, I want that flag to be the proud symbol of a nation that is truly free. And for it to be that proud symbol, we must also protect the sacred freedoms placed in the first amendment of the Constitution by our forefathers.

I say that because the flag represents freedom to me. But the first amendment guarantees that freedom. And when we seek to punish those who express views we don't share, then we--not the flag burners--we begin to erode the very values, the very freedoms, that make America the greatest

democracy the world has ever known. I support our flag, and the republic for which it stands. But I cannot, with the faith I have in that republic, support this constitutional amendment.

Senator Robb from Virginia

Public Speaking

Public speaking is an important skill for a delegate since there are many demands on them to share their ideas and persuade others of their views. Delegates also need strong public speaking skills when presenting their bill. Your goal during your presentation to your delegation is to inform and defend the merits of your bill and to persuade them to support it with their vote. Use the public speaking guidelines below to help you prepare for your oral presentation.

Know Your Content

- ~ Research your bill as exhaustively as possible
- ~ Know your side of the issue as well as opposing positions
- ~ Organize your thoughts into a problem, solution and benefits
- ~ Be persuasive by appealing to the needs of your audience

How to improve the content of your presentation

~ Read it aloud to yourself and ask the following questions

- Does it make sense?
- Is it persuasive?
- Is your message clear?

Vary Your Voice

- ~ Volume - Be sure you can be heard without shouting
- ~ Tone, your voice tone may represent enthusiasm, fear, sorrow or another emotion. Be sure you are using a tone appropriate to your presentation
- ~ Pitch - Is your voice too high or too low? Can you manipulate it for clearer understanding and fewer distractions?
- ~ Pace - Speak slowly so your audience can understand your message

How to improve your voice

- ~ Listen to your voice!
- ~ Practice your presentation and monitor your voice
- ~ Tape your presentation and evaluate your voice for volume, tone, pitch and pace

Maintain Positive Posture

~ Eye contact

- Maintain eye contact with your audience in order to communicate your interest in their ideas and a willingness to engage them in conversation.

~ Facial Expression

- Smile when appropriate to convey warmth and comfort with your topic

~ Gestures

- Balance your use of gestures. Too many wild gestures may be a distraction from your message and too few may seem stiff and unnatural.

How to improve your posture

Practice reading your presentation three times. It will be helpful to practice with a partner or in front of a mirror in order to receive immediate feedback.

- During the first reading, focus on making eye contact
- During the second, be aware of your facial expressions
- On the third reading pay attention to your gestures

Making Your Case

a. Opening Statements

- i. States the purpose of your piece of legislation
- ii. Clears up any confusing vocabulary at the beginning of debate
- iii. States your opinion or why you wrote the bill
- iv. Is clear and concise

b. Closing Statement

- ii. Restates pivotal points
- iii. Responds to untrue statements made by legislators
- iv. Is clear and concise

c. Bill FAQ Sheet

- i. Write down all of the commonly asked questions about your bill and to come up with good answers to those questions so that you can be prepared in the future
- ii. Keep it in front of you during debate so that you can reference it quickly.

Parli Pro

Amending a bill.

During committee session (or in the 8th grade senate), you can propose an amendment on another person's bill. When proposing an amendment, be specific on what line the text is located in and the exact wording you want to use. Your proposed amendment must receive a second, then you get opening comments. There is debate on your amendment only, then closing comments then voting. If your amendment passes by a simple majority vote, the language you proposed is added to the bill and the original proponent of the bill resumes debate.

It shall be the general policy that time spent debating amendments shall be consumed from the debate time allotted to the bill in question - in the case of non-friendly amendments, it will be up to the discretion of the Chair.

Tabling a bill.

If a bill needs to be debated later because the proponent isn't available or the bill is missing, you can make the motion to "lay a bill on the table." This is a non-debatable motion and requires a majority vote.

Removing a bill from the table.

This motion is valid only if a bill has been previously tabled and is seconded by a voting member of the body. This is a non-debatable motion and requires a majority vote.

To postpone indefinitely.

A motion used to not hear a bill on the floor. This motion is only made prior to hearing a bill and requires a second. This motion is debatable and requires a majority vote. If this motion passes, the bill may not be heard at all.

To rescind.

This motion is used to take back the passage of a bill adopted earlier by the body. This motion must be made by a member who originally voted in favor of it and is not in order after the Governor has taken action. This motion is debatable and must have a majority vote.

To call for the orders of the day.

A motion made by a member of the body asking for the reading of the docket (or the order in which bills will be heard). This motion is not debatable, doesn't require a second and doesn't require a vote. This motion can be done at anytime...even during debate.

To call for the previous question.

A motion the body votes to end debate, and to proceed immediately to closing remarks, followed by a vote on the bill. This motion requires second and a 2/3 majority vote.

To raise a question of privilege.

A motion made by a member of the body to correct any injustice that affects the proceedings of the body or its integrity. Similar to Point of Order, it is up to the presiding officer to rule on its validity. If the presiding officer deems it valid, all business stops until the issue is resolved.

To limit debate time.

Any member of the body can shorten debate time. This motion is only valid in between debate of bills. Please be specific on the amount of time you are shortening debate to: opening/closing comments, personal debate and overall debate time. This motion does require a second and is debatable. This motion does require a 2/3 majority vote for passage. Once passed, debate time cannot be lengthened.

To ask for the reading of the paper.

This is a motion to have the Reading Clerk read the bill currently being considered in its entirety to the body. This motion does require a second, is not debatable and requires a majority vote.

To appeal the decision of the chair.

A motion made to overturn a ruling of a presiding officer. This motion must be made immediately following the decision of the Chair and applies only to points of order.

Spoken form: "I appeal the decision of the Chair."

Chair's response: "Do one tenth of the members agree to the request for appeal? If so, please rise."

If 10% rise the maker of the motion is allowed three minutes to speak in favor of the appeal, followed by one spokesperson against also for three minutes.

Chair: "Shall the decision of the Chair stand as the decision of the House/Senate?"

The question is then voted upon. If there are a majority of "ayes" or the vote is a tie the decision of the Chair is sustained. If the "nays" hold a majority the Chair's decision is

reversed. If the ruling of the chair applied to a motion that required a two-thirds majority, a motion to appeal the decision of the chair shall also require a two-thirds majority.

The following motions will not be entertained for any reason:

- to suspend the rules nor adopt any other parliamentary model to supersede the rules of order*
- to reconsider*
- to proceed under committee of the whole*
- to do business under the call of the senate/house*
- to impeach*

Other debating tips.

When you have been recognized by the Chair, you have 3 minutes (if time has not be shortened) to do with as you see fit. If you choose to ask the proponent a series of questions and the proponent agrees, proceed with your questions. You do not have to wait until the proponent has finished answering before you ask you next question. In other words, you can cut off the proponent and ask your next question. Be careful with this as it might come across as you being a "bully".

Also, when asking the proponent a series of questions and they are in mid sentence, if you sit down then the speaker must stop talking. Again another move you can use, but be careful with this.

Voting tips.

All members present must vote. An abstention will be counted as a no vote. No member may leave the chamber while a vote is being taken.

A quorum is fifty percent plus one member of the specified body. A quorum is assumed to be present unless challenged before the announcement of the result of the vote.

No motion is in order while a vote is in progress.

All votes shall be by raising a name card. If a division is demanded or the presiding officer is in doubt, a standing vote shall be taken.

A majority is defined as any number over fifty percent of the members listed as present by the Reading Clerk or Assistant at the time that the motion being voted upon was made, provided that a quorum is present.

There shall be no oral roll call votes.

Legislators are prohibited from voting if they were not present for the debate on the bill in question. No legislator may enter the chamber once closing remarks have commenced until the conclusion of voting on final passage of that bill.

If issues arise which are not specifically resolved above, consult the full Rules of Order (YMCA Youth Legislature Advisor Handbook) or Reed's Parliamentary Rules.

Hints to successful debate

MAKE EYE CONTACT!!!

Show the five C's

1. Competitive (serious demeanor, ready to debate)
2. Confident (proper research, up on time, act like you feel good about what you are saying)
3. Courteous (not schmoozing, friendly, mature)
4. Credible (you want to be, dynamism can really help)
5. Commanding (dress appropriately, don't use street language, don't be afraid, don't be rude, don't swear)

Prepare

Know your information, don't memorize or read at the audience, speak to them. Starting of debate with the phrase, "What my bill is about..." is a bad idea. People can read, let them. Instead, grab their attention. Pull on their "heartstrings," tell them a personal story, something that will get them thinking that this is an important piece of legislation and that they want to vote for it. Practice presenting your opening; prepare to listen during the debate and write down key questions that arise in order to address them and to persuade during your closing.

When asked if you want closing remarks, always take them. This is your last chance to correct some wrong information that might have come up during debate and your last chance to persuade folks to vote for your legislation. Even if you state, "Please vote for this very important piece of legislation," at least that is something.

Mechanics of Speech

Variation – never do the same thing over and over again in any of your speaking habits. Mix it up.

Naturalness – be yourself, if it looks like you are faking it, no one will believe you.

Emphasis – use your delivery (voice, gestures, etc.) to emphasize and highlight the important arguments and the important works in your evidence.

Voice – change it for emphasis but don't talk too loudly or too softly.

Tone – change for emphasis but don't speak in an unusual or out of the character tone.

Speed – slow down for the important stuff, but don't go too slow or too fast.

Gestures – use your hands to emphasize important points, a lot of gestures makes you look more energetic, which increases your dynamism.

Face – your face is the most expressive part of your body, and studies show people pay attention to the expression on your face. Make sure to use facial expressions which match the points you are making. Don't send mixed signals.

Movements – don't be afraid to move around a bit, but don't stray too far from your information and notes.

Techniques for Legislative Debating

Politics involves the art of persuasion. Persuasion requires one to engage in intellectual debate. Intellectual debate requires the formulation of an argument based on logic and facts.

Debating legislation in committee or in the House or Senate requires legislators to adhere to certain standards of conduct. The following is intended to provide you with the tips you need to know how to be a good and effective debater during Youth Legislature.

3. Debate is conducted through _____

When you are recognized to speak, remember that you are speaking to the presiding officer. If interrogating another delegate or being interrogated by another delegate, you always speak directly to the P.O. and not the other delegate.

4. Recognition to debate is a _____

You are not entitled to be recognized to speak by a presiding officer. Therefore, when you are recognized, the first utterance from your mouth should be one of the following: "Thanks you, Mr./Madam Char." (in committee) or "Thank you Mr./Madam Speaker." (in the House) or "Thank you Mr./Madam President." (in the Senate).

5. Make sure you identify yourself.

Youth & Government rules require that after thanking the P.O. you state your _____ before you begin to speak...this is self-explanatory.

6. State why you are being recognized.

Always begin your speech by stating what your _____ is. Too often, delegates give speeches that are intended to be one way, but end up sounding like just the opposite.

7. Never get personal.

When debating, it is out of order to refer to another delegate by _____. It is appropriate to say "a pervious speaker" or "the delegate from (then state their delegation)."

8. Debate is scholarly, not an insult contest!

It is entirely out of order to refer to bills using any of the following words and others like them: "sucks", "stinks", "horrible", "pathetic", "terrible", "worthless", etc. It is in order to say something such as, "I don't believe this bill will achieve the results the prime sponsor is seeking...." You could be ruled out of order, or _____ called on you for using derogatory terms to describe a bill.

This is the democratic process, not Broadway!

It is appropriate that you believe in what you are saying and that you are passionate about what you believe. However, the chambers and committee session are not theaters for delegates to perform in but rather distinguished chambers for the purpose of thoughtful debate. It is completely inappropriate for any delegate to engage in attention-getting maneuvers (banging a podium, yelling into the microphone, etc.) that disrupts the flow of debate. In other words, if you want to act...join the Drama Club.

State your main points clearly and succinctly.

If you support or oppose a bill for several reasons, make certain that you draw lines of distinction between your points. "Run-on" speeches can leave the other delegates puzzled about what you are saying. A word of advice, _____ before you speak. That way you will have everything in written form in front of you.

Put the Prime Sponsor to work!

If you support the bill, you can assist the sponsor by asking him/her if they would yield

and then ask "leading" questions to help clarify the bills' intent. If you oppose the bill, then you can also ask the prime sponsor if they would yield to a series of questions and ask tough questions that might catch the sponsor giving misinformation.

Do not argue from a middle school or high school perspective.

At Youth Legislature, you are considered to be a young adult representing a broad and diverse constituency. How a bill impact you as a student or as students in general is completely irrelevant to whether or not the bill is worth its merit. Construct your argument based on the bill's impact on its intended audience and state whether it will or won't be helpful to that group. Use case law, factual information and appropriate anecdotal evidence to support your argument.

Closing your speech properly can make a difference.

When you begin to finish your speech, close by urging your colleagues to either support or oppose the bill. A strong finish would go something like this, "My fellow delegates, House Bill 23 represents the strongest possible message we can send to our senior citizens that their health care concerns are all of our concerns! I urge you to support House Bill 23. Thank you Mr./Madam Speaker.

Know your time:

- Total number of minutes give to each piece of legislation is _____
- The proponent has this many minutes for opening comments _____
- Question and Answer period of time is a total of _____ minutes with _____ given to each speaker.
- The proponent has this many minutes for closing comments _____
- Debate on a bill can only be extended once by _____ minutes.
- If debate has been extended, personal debate is limited to a total of _____ minute.

Most Common Mistakes

Made by members of the Legislative body

- Failure to obtain recognition before speaking.
- Failure to identify oneself and one's delegation.
- Failure to identify one's intent.
- Failure to limit one's remarks to the immediately pending question.
- Arguing at a personal level, attacking opponents for their past actions or comments, instead of limiting discussion to the subject itself.
- Failure to ask questions when uncertain about what is going on.
- Failure to raise a point of order when the chair infringes on the rights of members, as for example, when discussion is arbitrarily cut off by the chair or when the chair does not respond to a request for a division of the members of the body.
- Nitpicking insistence on trivial parliamentary technicalities which prevent an assembly from focusing its attention on the substance of what is being discussed.

Made by the Chair

- Taking unnecessary votes on non-controversial matters instead of using general consent.
- Cutting off discussion arbitrarily instead of permitting the members of the body to decide when debate should end.
- Refusing to permit the making of a motion with which the chair disagrees.
- Failure to remain impartial (or to relinquish the chair) when a controversial matter is being discussed.
- Failure to stifle promptly out-of-order remarks, such as non germane discussion of derogatory comments about another member.
- Allowing discussion to become too informal, bypassing the chair, thereby causing the chair to lose control.
- Failure to call for a final vote on a motion after it has been amended.
- Failure to restate each motion carefully before taking a vote, so that every member understands what is being voted on.
- Failure to confirm, after a vote, what has been decided, so that the secretary and every member of the body understand clearly what was done.
