

TEST. MARK. PROTECT.

Our goal is to provide you and your family with a fun aquatic experience, while ensuring that you and your family stay safe. The safety of your child is a team effort with both the lifeguards and the supervising individual (14+) being part of this team.

Effective January 1, 2023 – Every child 11 years of age and under must take the swim test. Drowning events are quick, quiet and happen when we least expect it!

- Children who pass the swim test will be issued a green band.
- Children who do not pass or opt out of the swim test will be issued a red band.
- Children who are wearing a red band must be within arm's reach of a swimming adult at all times. The swim test is as follows:

25 yards (one length) of continuous front crawl, demonstrating good technique and breathing.

Independently climb out of the pool, jump back in.

One minute of treading water, the swimmer's head must stay above water for the whole time.

**** Swimmers may attempt the test once per day, other attempts are at the lifeguards discretion****

Why swim test?

Because We Care. Most aquatic incidents happen in shallow water (less than 5') and involve children 8 and under. Protect non-swimmers, especially younger children, by limiting them to the shallow end and adding additional layers of protection.

Red Band: Non-swimmer

Swimmers marked with a red band are required to have a supervising individual (14+) in the water or around the pool within arms reach at all times. Supervising Individual (14+) must actively supervise children regardless of wearing a lifejacket.

Layers of protection:

1. The non-swimmer is actively supervised, within arms reach of a supervising individual (14+)
2. The non-swimmer is wearing a properly fitted US Coast Guard approved life jacket. We have life jackets available, or you may use your own Coast Guard approved life jacket.

Green Band: Swimmer

Swimmers marked with a green band have successfully passed the swim test and are allowed to:

- Swim in the lap lanes
- Use the water slide
- Swim in the deep end

If the swimmer is under 12 they must be accompanied by a supervising individual (14+) in the pool area.
